## Los Gauchos Outfitters Highlights the Mercedes Lodge 2014

*With interest in Dorado fishing and award winning Upland hunting – Mercedes is the top spot in Uruguay for hunting and fishing*

**Miami, January 15, 2014:** The Mercedes Lodge in Uruguay is becoming the year round place for high volume dove hunting and Dorado fishing. The limited Perdiz (Upland) hunting season makes this lodge book up fast for doves and Perdiz from May 1 to July 31.

What makes the Mercedes Lodge stand out? Few reasons, and all important for the North American angler and/or wing shooter wanting to get the most out of their time in Uruguay.

A huge asset to the Mercedes Lodge is the head guy in charge while in Uruguay. Hector is "hands on". Los Gauchos is built on taking a personal interest to see that each hunter has a good experience, Hector is right there to prove this characteristic of Los Gauchos.

The next best thing to quail hunting is to experience the excitement of an Upland hunt at the Mercedes Lodge with professional Perdiz hunter, Hector. The Mercedes Lodge maintains a high quality kennel of fantastic French Brittney's. This area of Uruguay has an abundance of fields to hunt the Perdiz.

Headquartered in the US, Los Gauchos Outfitters is one of the nation's leading outfitting service for South America.
